

March 2020

Blwyddyn 4/5 Learning Pack

Reading

All children can enjoy reading books for 20 - 30 minutes each day. (More if they like!)

Please support them in asking them about what they have read.

e.g. Can they describe the characters? What happened in the story? Did they enjoy it? If they could change the ending, what would they write?

Challenge: Can they write an alternative ending, or a sequel to the story they have read?

Hwb

In our class, the children regularly access their 'Hwb' accounts. They log in independently using their username and password and are able to access many learning resources here. They can do so on a phone, tablet or computer.

Within J2Easy, on **Spellblast**, your child can access their personalised spelling challenges, set up with their weekly spellings. They can play safely and anonymously against others who are online.

In this same section is **J2Times Tables** and many other educational games.

At least **15 minutes on each** of these will benefit your child and keep their minds active.

Maths

Every child has a personalised log in for the RM Easimaths website. They can access maths skills at an appropriate level for them. Their log in details are on the attached slip. Please do this each day.

Science

Our topic at school is 'Space'. If your child enjoys researching, perhaps they can create a leaflet, fact file or some artwork about their choice of elements of the solar system.

P.E.

Outside fun... Could your child continue our usual morning routine of stretching, doing lunges, squats and star jumps each day? Maybe make a circuit in the garden?
